Office Action Summary	Application No. 10/509,325	Applicant(s) SAKURABA ET AL.	
	Examiner Vicky A. Johnson	Art Unit 3682	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "soft" in claim 3 is a relative term which renders the claim indefinite. The term "soft" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. The polyester elastomer is rendered indefinite because the specification fails to provide a standard with regard to the limitation "soft."

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Baumann (US 5,497,677).

Baumann discloses an accelerator pedal comprising: a stopper member (2,3) attached to a floor of a driver's seat of a vehicle (see Fig 1); a pad member (21) to be fitted against the stopper member and having a pad for receiving a depression force exerted by a driver (see Fig 1); an arm (18) which is engaged with the pad member and transmits the depression force (see Fig 1); and a bracket (13) which is engaged with the arm and supports the arm (see Fig 1); wherein the pad member is provided with a stopper fitting section (22) by which the pad member is fitted against the stopper member, and the stopper member is provided with a pad fitting section (24) into which the stopper fitting section is fitted, wherein a hinge section is provided for connecting the pad to the stopper fitting section (see Fig 2), and wherein the pad member is made of resin (col. 3 lines 13-19).

Re claim 2, the pad, the hinge section, and the stopper fitting section are integrally molded by a single resin material (see Fig 2).

Re claim 3/1 and 3/2, the pad, the hinge section, and the stopper fitting section are made of a polyester elastomer (well known).

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
